Announcement about the impact of the COVID-19 virus on business

Since the appearance of the COVID-19 virus to this day, the operational business of the AD Plastik Group has been conducted as planned. Despite the difficulties we all face, there was no production stoppage. As we communicate with our customers and suppliers on a daily basis, we would hereby want to inform the investment public of the changes we have received from them.

Renault Group closed factories in France, while Slovenian Revoz has currently been operating. PSA Group closed factories in Europe until March 27, while Daimler closed Hambach factory in France. Ford is currently working as planned, as are all our Russian factories.

Other customers we cooperate with have rationalized their business operations, which at the moment does not have a significant adverse material effect on our business.

Hereby we would like to inform the investment public that we are actively taking all necessary measures to continue operating in the complex conditions we face.

Mladen Peroš
